Initial Build Review Notes

Design Feedback & Updates

- The overall design is coming together well, but there are still opportunities to refine the layout and organization of certain elements.
- Spoke about incorporating more of their personal creative style while maintaining the overall Wakanda/Black Panther theme.
- Discussed rearranging some elements to improve the visual flow and make the page easier to navigate.
- Suggested adding an image of Wakandan technology to better highlight the technological advancements within the fictional world.
- Consider incorporating more geometric shapes with subtle gradients in the background to add depth and reinforce the Wakandan aesthetic.

Functionality & Technical Considerations

- Discussed making each character hotspot clickable, linking to a separate page with additional information and context about that character.
- Ensure that the layout, images, and interactive elements adjust appropriately across different screen sizes.
- Pay particular attention to how the character hotspots and background elements function on smaller screens.
