Initial Notes for Website Article Microsite

- I like the black and purple color scheme. It fits the overall aesthetic of Black Panther and Wakanda.
- The imagery is strong and helps bring the world of Wakanda to life.
- Mockup A feels more organized and makes the content easier to follow.

Areas for Improvement

- I think the designs could better capture the futuristic and technologically advanced nature of Wakanda.
- Some sections feel a little text-heavy, which could make it harder to keep visitors engaged.
- I would love for the overall experience to feel a little more immersive and engaging.
